

Solutions to asphalt repairs, concrete repairs and pavement preservation.

UNIQUE'S YEAR ROUND PRODUCT USAGE CALENDAR

 Permanent Pavement Repair Material UPM® Permanent Pavement Repair Material is our high-performance asphalt patching material that outlasts the surrounding pavement over 90% of the time. We guarantee it.	 Mini Cold Mix MICROMIX® Mini Cold Mix was designed for smaller, detailed asphalt and concrete repair needs. It provides intricate coverage of narrow, complex asphalt and concrete cracks.	 Spec Product Material SPM™ Spec Product Material line allows you to have UNIQUE custom formulate asphalt and asphalt emulsion additives, liquids and mixes to meet your product specification needs.	 UNIQUE® Concrete Solutions offer high-quality cements, grouts, mortars and concrete mixes designed for all types of concrete repairs. From roadway and bridge repairs to overhead applications to instantly stopping water, our concrete line will meet all of your needs.	 Hot Mix Adhesion Promoter Pavegrip® Hot Mix Adhesion Promoters are high-performance asphalt anti-stripping agents that can dramatically improve adhesion and increase tensile strength.	 Pourable Crack Filler KOLD-FLO® Pourable Crack Filler is a modified asphalt emulsion crack filler & sealer that is ideal for repairing cracks in roads, pavements, driveways, concrete foundations, parking lots and other asphalt or concrete surfaces.	 Preservation & Rejuvenation Liquid RAVEL CHECK® Preservation & Rejuvenation Liquid is an asphalt based emulsion designed with LOCK THE ROCK® technology to rejuvenate, preserve and restore asphalt based pavements.	 Gilsonite Modified Sealer INTEGRA-SEAL® Gilsonite Modified Asphalt Sealer is a premium asphalt-based sealer. Protect and beautify aging asphalt without the odors and health/environmental concerns that accompany coal tar-based sealers.	 FAST DRYING ADDITIVE QUICKLOK® Fast Setting Additive is a water based additive designed to significantly reduce curing/drying times of asphalt emulsion based pavement sealers.
