

ROADS&BRIDGES

Go-To

LIST

2012 Top Design Firms

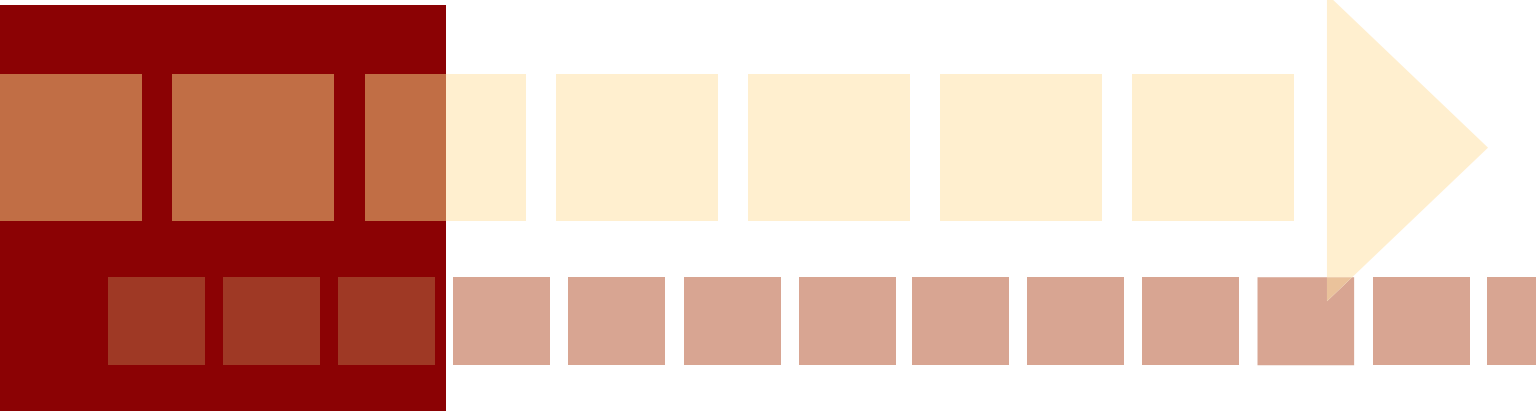

This year's Go-To List for design firms contains prominent engineering institutions covering virtually every phase of the industry. ROADS & BRIDGES magazine sends a survey out to its government (DOT) readers, who in turn select the firms they prefer to work with out on the jobsite. **The results are based on professional preference, not annual revenues.** The areas of discipline recognized in this program include road and highway, bridge, airport, mass transit, storm water and design-build.
